Post 1: Apply by March 5th to Rethink Ireland's Social Enterprise Development Fund 2021. The €3.2 million Fund, being delivered from 2018 – 2022, was created in partnership with Local Authorities Ireland and funded by IPB Insurance and the Department of Rural and Community Development through the Dormant Accounts Fund and aims to find and back social enterprises that add to the social and economic fabric of their community by way of social impact.

Social enterprises are organisations whose mission is to have a positive effect on society. Social enterprises are at the heart of facing the greatest social challenges in Ireland. They are professional and experienced, and use business skills and clever thinking to bridge the gaps in our society. The money they make from their work is used to grow what they do so that they can reach all the people in society who need their help.
