Hi Mark,

I just sent you a formal request for a quote for a peg mill. As you can see from the spec for the pegmill I am looking for a 1200kg per hr peg mill, however from your previous quotation I understand the max you can do is 500kg/hr so in your case can you please quote me for 2 x 500kg machines. If you wish to discuss further do not hesitate to phone me on the number below.
